

Youtube embed codes for partners' website

As an **official Phished partner**, you want to market the Phished automated training software for security awareness training to your current and potential customers.

Our **explainer video** is very suitable for informing them. It briefly touches upon the danger of phishing and the importance of security awareness training and explains how Phished tackles this thanks to hyper-realistic simulations and an AI-driven training platform.

The video exists in 3 language versions:

NL:
Phished - Geautomatiseerde bewustmakingstraining voor cyberbeveiliging

FR:
Phished - Une formation automatisée de sensibilisation à la cybersécurité

EN:
Phished - Automated security awareness training made easy

With the codes below,
the video can be embedded
easily on your website.

Good luck!

NL
